BethanyKids

KENYA

THE BIG PICTURE

BethanyKids is a Jesus-centered organization improving children's access to compassionate healthcare across Africa by training and resourcing African surgical teams.

OUR WORK

Millions of children across Sub-Saharan Africa live with or tragically die from treatable surgical conditions, but few can access the care they need.

BethanyKids is transforming this reality by improving access to compassionate healthcare for children across Africa.

Our commitment is to train new pediatric surgeons from across the continent of Africa, provide rehabilitation services, and follow-up care for children with surgical conditions and other special needs.

Across Africa, our surgeons, therapists, and wheelchair professionals have committed their lives to bring hope to the many who have been ignored.

We believe every child deserves to live a healthy life with dignity.

WHO WE ARE

MISSION
Improve access to compassionate healthcare for children across Africa.

MODEL
Train and resource African surgical teams for children.

IDENTITY
We are followers of Jesus.

CULTURE:
Compassion, Collaboration and Excellence

MOTTO: *Love Heals*

OUR CULTURE

BethanyKids has a unifying culture that helps make us who we are.

COMPASSION

We care deeply, recognizing the physical and emotional pain many of our patients endure.

COLLABORATION

We know we're one part of a larger solution and humbly partner with others to bring healing and hope to children and their families.

EXCELLENCE

We honor the dignity of every child by delivering high-quality evidence-based care.

OUR PROGRAMS

- Pediatric & Neuro Surgery

- Rehabilitation Training

- Surgical Training

- Assistive Technology

- Rehabilitation Services

- Mobile Clinic

- Spiritual Ministry

- Pediatric Occupational Therapy Training

Curative

- **Pediatric Surgery**
  - Congenital Anorectal anomalies
  - Congenital Esophageal & Intestinal Problems
  - Growths and Tumors
  - Traumatic or Acquired Injuries
  - Treatment of Patient Ductus Arteriosus
- **Pediatric Neuro Surgery**
  - Spina Bifida & Hydrocephalus
  - Brain Tumors

Rehabilitation

- **Mobile Clinic**
  The Mobile Clinic program takes medical care across the country to remote areas where patients have less resources to travel. The program not only allows us to follow up with former patients, but also to raise awareness and help with early diagnosis of cases requiring surgical intervention.

- **Assistive Technology**
  Our team provides appropriate wheelchairs following WHO guidelines. The team also provides other assistive devices like crutches, walkers when available. The program desires to increase access to more assistive devices.

- **Rehabilitation Services**
  - Occupational therapy
  - Physiotherapy
  - Wheelchairs and other assistive devices
  - Continence management
  - Orthopedic technology

Training

- **Surgical Training**
  In 2007, BethanyKids at Kijabe Hospital became the first site in East Africa for training pediatric surgeons accredited by the College of Surgeons of East Central, and Southern Africa (COSECSA). The training program is also the first specialty training program under the Pan African Academy of Christian Surgeons (PAACS), which ensures that the professional training is coupled with spiritual discipleship.

- **Pediatric Occupational Therapy Training**
  In 2023, BethanyKids in partnership with AIC Kijabe College of Health Sciences launched a National Higher Diploma training program for occupational therapists with a focus on pediatric care.

- **Public Education Training**
  We train therapists, nurses, parents, and caregivers from across the country so they can provide care for our clients closer to their homes. We also work with and train faith-based leaders to support our inclusion efforts for people with disabilities in their communities.

Spiritual Ministry

In everything we do, we strive to offer care that is holistic, considering the physical, emotional and spiritual well-being of the child and their families. Our chaplains are committed to offering support to children and families within our hospital and clinic settings.

OUR CONTACTS

Training - 0780 43 26 24
